

TWO BULLETS IN
BUSHMAN'S BODY

And Coat Burned over Wound
Discovered after Further
Examination.

HUNTING MAN AND WOMAN

Know now that Gettysburg Man Had
Two Passengers in Car when he
Left Town.

After the body of George J. Bushman, who was murdered in or near Harrisburg Wednesday night, was taken to an undertaking establishment, it was found that he had not only been shot in the head, but that a bullet had also entered the left breast. His overcoat directly over this latter wound was badly burned, indicating that the spot was fired at very close range.

Charles Plank, a brother-in-law of Mr. Bushman, went to Harrisburg on Thursday afternoon and made positive identification of the body. He gave instructions about sending the remains back to Gettysburg after a postmortem performed Thursday night and the coroner's inquest to-day. H. B. Bender went to Harrisburg this morning for the body. The funeral arrangements will not be made until word is received from the son and daughter.

Gettysburg and Harrisburg authorities are eagerly searching for a man and a woman who left this place on Wednesday evening about dusk with Mr. Bushman. It is believed that they can throw some light on the mystery. A number of people saw the car leave town with Mr. Bushman and his passengers, and local authorities are particularly anxious to find out who the man and woman were. Anybody knowing the names and addresses of either or both should communicate such information at once to County Detective Wilson.

The tragedy apparently has caused just as much interest in Harrisburg as in Gettysburg. The newspapers there are featuring the murder in their columns, giving prominence, headlines, and space to it. The "Parade" this morning says:

"Who killed George J. Bushman?"

"And why?"

"What has become of the man and woman who left Gettysburg with him on the night of his murder on the River Road at Lucknow?"

"Who was the man? Who was the woman?"

"Was robbery the motive?"

"Was it jealousy?"

"Or what might have been the dark motive in the heart of the slayer of the prominent Gettysburg garage-man?"

"These are questions the police of this city and Adams County are trying to solve to-day."

"Up until an early hour this morning the authorities had absolutely no clue to either the identity of the murderer or murderers, or the motive. All they know is that Bushman was slain and hidden under an automobile robe in the bushes of the River bank at Lucknow."

COUNTY NURSING SURVEY

The Gettysburg Red Cross Chapter will make immediately a survey of the nursing resources of the county. This survey will be under the direction of Misses Nancy and Rebecca Adams, of Gardners. Its object is the ascertaining of the number of trained and practical nurses in each district as well as that of the graduates of Red Cross First Aid courses. To all such persons blanks will be sent by the committee.

WOMEN TO KEEP
ROLL OF HONOR

Records of Adams County Men
in the Service to be Faith-
fully Preserved.

The roll of honor of Adams County will be kept by Miss Annie H. Major, assisted by Miss Margaret M. McMillan. The record will contain the name of every man from the county now or hereafter to be called into the service, his entry, his discharge and his achievements, which record will, when completed, be placed in some permanent and lasting form.

These ladies will ask for the co-operation of a representative in the larger centers of population of the county and will form an organization for that purpose. They will be glad to receive, and they earnestly request, all information relative to every man in the service, which may be communicated to them or to C. E. Stahle, Esq., executive secretary of the council and committee.

The idea is an excellent one, and it is the intention to make this roll an accurate, full and reliable history of Adams County's soldiers. Its compilation will require a great deal of labor and research, so that any assistance afforded or information given will be appreciated and accepted as a patriotic service.

TO RETURN THE HOUR

Turn Back Your Clocks on October 27th.

No further effort will be made by Congress to continue the existing daylight-saving law, and the hands of the clocks will be turned back an hour on October 27, as originally planned. This decision was reached at a conference between congressional leaders and Chairman Baruch of the War Industries Board, who had recommended that the law remain in force for the period of the war.

It is the plan to have the turning back take place at two o'clock in the morning for the reason that fewer trains are moving at that hour than at any other time. This will give back to the country the hour it lost when the clocks were moved forward last spring.

"HIT 'EM AGAIN"
BIG HELP TO LOAN

Good Idea Meets with Instant
Favor and Members Join
by Scores.

TOTAL IS NOW MOUNTING

Club May be Means of Putting Across
Two Million Dollar Campaign in
the County.

The "Hit 'Em Again Club" originated here on Thursday afternoon to save Adams County from failure in the Fourth Liberty Loan. Bids fair to fulfill its purpose. Announcement was made that to be eligible for membership persons would have to subscribe at least \$1000 in addition to any other purchases they had already made. At noon to-day it was reported that the club had already provided for \$134,000 more bonds and the amount was climbing rapidly.

Three hours after the organization was started in Gettysburg it had thirty members, and every person approached had signed up for \$1000. Thursday evening others were added and then a few men got together and started to talk over the proposition. Soon the subscriptions began to go above the \$1000 and several subscribed \$1500. Then they began to double, and when everything was tallied it was found that \$96,000 had been subscribed. It took less than a minute to run it up to round figures.

To-day the thing kept on growing. Sub-chairmen in all the county towns were advised of the success of the movement in Gettysburg. They immediately got busy and news of memberships coming in from the other boroughs and from some of the townships kept the wires hot. Practically every man and woman who joined the club had already bought what they thought was their limit and the new purchases were above what they had placed as their maximum.

Most of them will have to borrow the money to make their payments but it was pointed out that the banks had made such easy terms for this that they could simply turn over their interest from the bonds to pay the interest on what they borrowed. This feature of it brought many others and the thing is the most popular effort launched here for many months.

The subscriptions of the "Hit 'Em Again Club" has already boosted the totals. In addition canvassers are beginning now to turn in the subscriptions they had in hand and the total at noon to-day from all sources stood at \$1,297,000. The battle to make the allotment of \$2,000,000 will keep up to the last minute Saturday night and success is in sight if all come across.

The success of the "Hit 'Em Again Club" must not discourage those who are able to take less than \$1000, for every subscription is needed, even if it is for a \$50 bond.

The following are the members of the club up to one o'clock this afternoon, with the subscriptions made in addition to their original bond purchases:

\$8000: Frank Eberhart.
\$6000: Evergreen Cemetery Association.

FRENCH GOING FORWARD

Zeebrugge Apparently the Next Ob-
jective of British and Belgians in
their Offensive.

(By Cable)

Paris, Oct. 18.—French troops have made important advances on three fronts, the French War Office announced in the night official communication.

Co-operating with the Belgians and British, the French in Flanders have captured Pirham, Meufbeke, and Wyngheue. In the Oise region they reached the approaches of Wassigny and Guise. To the west of Grand Pre they advanced in the face of violent counter attacks.

London, Oct. 18.—Allied troops have advanced more than 12 miles on all of the 35 mile front between the Meuse and Serre Rivers. Haig announced.

The British have reached the outskirts of Tournai. Belgian cavalry are at the gates of Bruges.

Paris, Oct. 18.—Allied infantry supported by British monitors advanced upon Zeebrugge.

Franco-American forces southeast of Thiel are marching toward Degze, which is eight miles southwest of Ghent.

The British have overrun Courtrai and the Germans are fighting hard as they retreat toward Audenarde.

Tournai has been completely encircled and Roubaix is virtually taken.

The new Allied drive in the Oise region is menacing Ribemont, seven miles southeast of St. Quentin. Only this town remains to be taken and then it will be easy to push on to Guise.

The Germans are abandoning places northeast of La Fere.

Paris is rejoicing over the capture of the three important cities of Lille, Douai, and Ostend. The boulevards are decorated with flags.

Paris, Oct. 18.—French and Serbian forces have taken Ipek, 15 miles inside of the borders of Montenegro.

North of Nish, Allied troops have reached Kalna and have occupied the heights south of Jekfina.

Further to the west, French and Greek troops have reached Novibazar, from which the enemy fled.

BELGIAN CITIES FALL TO ALLIES

Ostend, Lille, and Douai are All Taken in Thursday Fighting.

REPORT BRUGES CAPTURED

King and Queen of Belgium Enter One of Reclaimed Cities. Civilians Rejoicing.

London, Oct. 18.—British troops entered the town of Douai yesterday after overcoming the enemy's resistance on the line of Haute Deule Canal, according to the official statement from the War Office. The Fifth British Army encircled and captured Lille, the statement adds.

Paris, Oct. 18.—King Albert, of Belgium, and Queen Elizabeth entered Ostend yesterday afternoon.

The Germans are abandoning the Belgian Coast and are seeking refuge behind the outer defenses of Antwerp.

With the Allied Armies in Belgium, Oct. 18.—Belgian patrols have entered Bruges and cavalry is operating on both sides. Belgian guns are now firing from south of the city.

London, Oct. 18.—Over a front of 40 miles, from the North Sea, in Belgium, to Lille, in Northern France, the Germans are in general retreat before the Belgian, French and British armies. Likewise, the enemy is being forced to concede defeat by retrograde movements before the British and Americans southeast of Cambrai, under the attacks of French in the pocket between the Oise and Serre Rivers north of Laon, and by reason of continued strong attacks by the French and Americans in Champagne and along the Meuse River.

Nowhere, however, is the enemy in disorder. In Belgian Flanders his steps are being hastened by reason of the swift drives into his line by the British at Lille, just south of the Belgian border, and by the French and Belgians farther north, which threaten to compel him to enter Dutch territory and face internment unless he is fleet enough to withdraw out of the entire pocket between the Scheldt River and the sea and reconstitute his line with its right wing resting on Antwerp.

Driving Toward Ghent
Ostend, one of the famous submarine bases on the sea, is in British hands, Bruges is all but captured, while to the south from the region east of Roulers the Allied forces are fast driving toward Ghent in an endeavor to seal the Western Flanders sack and remain in it large elements of the enemy's forces. Strong opposition is being offered on the Courtrai sector to prevent the Allies from carrying out their maneuver to the full. More than a score of additional villages have been liberated by the Allied troops and numerous guns and quantities of stores have been captured.

In their withdrawal from West Flanders the Germans are carrying out a tactical movement which doubtless will end in a general falling back of their line in Northern France and permit them to materially strengthen their resistance on a new and shorter front. This probably will be from Antwerp to Namur and Metz and thence to the Swiss border, which would still leave the Germans 80 miles from their own border line both at Antwerp and Namur. At present, the center of the Flanders fighting is near Tielix, which is about 125 miles from Aix La Chapelle, on the German border.

Southeast of Cambrai, over a front of 10 miles between Le Cateau and Bohain, the British and Americans are delivering a violent attack against the Germans, and as last reports they were meeting with success, although the Germans were savagely resisting with machine guns and infantry and with artillery behind their line.

British in Lille

British Headquarters in Flanders, Oct. 18.—British drums were beating through the streets of Lille yesterday morning, while British patrols advanced east of the city in contact with the retreating Germans. The evacuation of Lille and the British entry into the city was one of the most dramatic episodes of the war.

At 4 o'clock yesterday morning the German commandant at Lille ordered all the inhabitants of Lille to assemble as promptly as possible. As they hurried through the gloom of the streets they observed the garrison marching on. They were told to go out to the British lines and meet their friends. Then came the rhythmic tramp of infantry, which gradually died away. The Germans had departed from Lille.

As dawn a British airman flying over the city behind a most amazing sight. The streets were thronged with civilians, who were frantically waving handkerchiefs and shawls. Not a soldier could be seen. The aviator quickly turned and carried the new back to the British lines. Pa-

trols advanced immediately and entered the city.

Germans Resisting Stubbornly
North of Laon, in the sack between the Oise and Serre Rivers, the French are endeavoring to drive out the Germans or capture them before they can make their way eastward to Hirson. Here also the enemy is using his machine guns and artillery to impede the progress of the French, but further gains have been recorded.

The greatest resistance of all, however, is still being imposed against the efforts of the French and Americans in Champagne and along the Meuse River, where the holding of the line is essential to stave off a general retreat by the Germans all the way from Belgium to the Swiss frontier. The French in Champagne are still fighting hard to capture Bethel, but the Germans thus far have been able to hold this important position in their own hands. North of Grand Pre both the French and the Americans have made further progress over the difficult ground. Especially severe have been the hardships suffered by the Americans in encompassing the natural fortifications and the attacks by hordes of enemy gunners. Before the Americans the Germans are giving ground only inch by inch.

BITTERNESS OF GERMAN PRESS

Call Issued to People to Stand by their Government in the Present Crisis.

Amsterdam, Oct. 18.—Dispatches from Berlin indicate a strong anti-Wilson tendency not only in military quarters but also in those which have favored peace.

Judging by Rhenish and Berlin newspapers received here President Wilson's reply to Germany was printed in full in the German press. The newspapers variously termed the reply "a trap," "Wilson's evasions," "a rude answer" and the like.

Some of the newspapers do not attempt to comment on the reply, merely saying:

"Leave it to the supreme army command." Here and there appeals are made to neutrals to the effect that Germany's annihilation would involve their commercial ruin also. The customary truculence of the Lokal Anzeiger gives way to despondency, the paper lamenting over "the human lives being sacrificed while Wilson has it in his power to end the carnage."

Basel, Switzerland, Oct. 18.—The Tagblatt and Vorwaerts of Berlin urge the Executive, in the higher interests of humanity, to avoid an excessively irreconcilable spirit. German officials consider that all possibility of negotiations is not precluded, while the conservative organs see nothing but a struggle to the end without further efforts toward peace.

The Kreuz Zeitung says that President Wilson definitely seeks the capitulation of the German army and the abdication of the German monarch. "Let the faithful servants of the monarch rally round him to defend him against internal and external enemies," the newspaper pleads.

The Deutsche Tages Zeitung cannot conceive of a government which would reply otherwise than with an energetic "no" to President Wilson. The moment has come, the newspaper declares, to collect the last forces to defend Germany's honor, her frontier and future.

Amsterdam, Oct. 18.—As Count Stephen Tisza, the former Hungarian premier, was leaving the lower house of Parliament at Budapest Wednesday a youth attempted his motor car with a revolver, according to a dispatch received here from the Hungarian capital. POPE RELIES ON WILSON

Praying That the President May Not Deviate From His Purpose.

Rome, (Monday), Oct. 14.—"God may say that the Holy Father is pinning his faith entirely on President Wilson to make a quick and durable peace," Monsignor Corelli, Papal under secretary of state, said to a correspondent. "He is making special prayers to this end—that President Wilson may not deviate from his present course, and that nothing may interfere with his purpose and compel a removal of the war."

STRONG POSITIONS TAKEN BY YANKS

Americans now in Complete Control of the Cote de Chatillon. Last of Three Hills.

COUNTER-ATTACK FOILED

Grand Pre Taken by Americans only After they had Outwitted the Germans.

With the American Army North-west of Verdun, Oct. 18.—In complete control of the Cote de Chatillon, the Americans now hold the key to the great stretches to the north and northeast.

The hill is, in fact, the final of three keys, all of which have been bitterly defended. The first was Mamelie trench, outside of Romagne, which, when won, gave access to the equally vital Dame Marie, and that position in turn gave access to Chatillon.

From the latter position the great mass of German defensive positions to the northwest can also be controlled and the line can be exploited further without organized attack, because each position is on a sloping hill that can be swept with an enfilading fire.

The Americans took as prisoners from the Germans two Russians, who had been forced to labor in working battalions close behind the front line.

When it was seen that the Germans had effected a concentration in the Bantheville Wood for a counter-attack on the Cote de Chatillon, which the Americans had captured, the American artillery opened up heavily. The pounding resulted in the Germans failing to leave their trenches. Rainy weather continues to interfere with the operations on this front.

Yanks Show Heroism

The capture of Grand Pre by General Pershing's forces was accomplished under terrific hardships and with a heroism not hinted at in the brief official announcement of the taking of this stronghold of the Germans north of the Argonne Forest.

The Americans took the town primarily by outwitting the enemy—by attacking without artillery preparation, which the Germans had expected, by wading the River Aire at four points instead of building bridges, by struggling through almost impassable mud step by step until suddenly on top of the amazed Germans and by driving them into a retreat after hand-to-hand fighting.

The Americans had moved to a point within a short distance of Grand Pre and the Germans had destroyed the bridges over the shallow Aire as they retreated. The enemy obviously expected an artillery fire to preface any further attack, for his surprise was unfeigned when the Americans smashed into his positions.

Waded Cold Stream

The American attack began at six o'clock in the morning. The men moved forward in the shelter of the forest reaching the Aire at four points agreed upon where the stream could be forded.

Without attracting the attention of the Germans the Americans then waded into the cold water, which reached to their waists and even higher, and pushed across the stream.

On the northern bank they found mud flats into which they sank half-way to their knees. The Germans by this time had discovered their approach and opened a bitter machine-gun fire, but the Americans pushed steadily on. Beyond the mud banks, which were crossed slowly and with the greatest difficulty, the Americans found the Germans and closed with them in a desperate bayonet hand-to-hand fight. Rifles often were used as clubs, and each man struggled to down his individual opponent.

At 11 o'clock the Americans had completely overcome the enemy, had driven him into the woods north of Grand Pre and were in possession of the important rail head.

GERMANS ARRESTED IN CUBA

Eight Prominent Merchants Are Trapped By Secret Service.

Havana, Oct. 18.—Cuban Secret Service officials have arrested eight of Havana's most prominent German merchants who were promptly interned with other alien enemies. Command Given Not to Devastate Unless Compelled by Necessity.

Amsterdam, Oct. 18.—The German Army command, according to a bulletin issued by the Rotterdam Courant, has ordered its armies to cease devastating places unless absolutely compelled by military necessity.

TAX REFUND PROVIDED

War Revenue Bill Amended to Cover Business Losses.

Washington, Oct. 18.—An amendment to the War Revenue Bill by which taxpayers suffering losses in the operation of their business may secure refunds from the Treasury of taxes already paid, was adopted by the Senate Finance Committee.

Under the amendment, which has been under consideration by the committee for three weeks, a person suffering loss in the operation of his business might, by submitting adequate proof to the Secretary of the Treasury, receive a refund from the tax paid by him for the preceding year. Should the amount of the loss result in the refund being more than the total amount of taxes paid by him, then the amount in excess would be credited to him on his taxes for the coming year. Refunds would be made only for losses suffered prior to December 31, 1916.

HIGHER PAY FOR FLIERS

Baker Would Reward Students for Added Risks.

Washington, Oct. 19.—Legislation providing increased pay for candidates for commissions in the air service while receiving instruction involving flying, and appropriating \$4,162,200 for the purpose, was transmitted by Secretary Baker to Chairman Chamberlain, of the Senate Military Committee. Candidates would receive \$42 a month in addition to their regular pay. Secretary Baker emphasized the dangerous business of learning to fly.

HUNGARY ACTS FOR ITS INDEPENDENCE

Proclamation Said to have been Issued by the Parliament.

London, Oct. 18.—At a meeting of the Hungarian Parliament a proclamation was read declaring Hungary to be an independent state, says a dispatch from Berlin forwarded from Copenhagen to the Central News Agency here.

Henceforth, the message adds, there is to be only a personal union between Austria and Hungary.

Basel, Switzerland, Oct. 18.—Baron Burian, the Austro-Hungarian Foreign Minister, spoke in the most optimistic manner of the prospects for an early peace in addressing the Foreign Affairs Committee of the Austrian delegation at its meeting on Wednesday, says a Vienna dispatch.

"I nourish the hope to-day most fully," said the Foreign Minister in this connection. "For if the contents of President Wilson's reply are studied there is nothing to be found to frustrate such a hope or even to delay its realization considerably."

"The political point in President Wilson's reply is settled," Baron Burian declared, "as Germany's reply will undoubtedly establish, by the modifications which are being made in the Constitution."

TIGHT REIN ON PAPER

Use for Special War-Work Supplements Refused.

Washington, Oct. 18.—Chairman Burian of the War Industries Board, declined to grant a request of John D. Rockefeller Jr. for priority for news print paper with which to publish an eight-page supplement in New York papers concerning the work of the United War Work campaign. Mr. Rockefeller had arranged for New York papers to publish such a supplement Sunday, November 10. Similar requests in connection with the Liberty Loan and Red Cross campaigns have been refused.

SIX ON AMERICA MISSING

Raising of Transport is now Under Way.

Hoboken, N. J., Oct. 18.—Six persons, two sailors and four soldiers, are as yet unaccounted for as shown by checking up the names of those on board the United States transport America which sank at her pier here last Tuesday morning. Both of the sailors are from the fire room force.

The Naval Board of Inquiry appointed by Rear Admiral Albert Gleaves is in session and a marine wrecking company is at work raising the ship.

WILSON WILL NOT PAY TAX

Clause of Bill Also Assessing Judges and Officials Dropped.

Washington, Oct. 18.—The Senate Finance Committee in revising the War Revenue bill yesterday struck out House provisions taxing the salaries of the President, members of the Supreme Court and Superior Court and State officials.

When You Fight--Fight

FIGHT as these American soldiers fought in the streets of Fismes. "They covered themselves with glory," the papers say. Of course they did—they are Americans.

They met the finest of the enemy's troops in a terrific hand-to-hand struggle. They used their guns—their bayonets—their bare fists. Every American soldier went after his man desperately, fearlessly, persistently, with one great driving purpose—to whip that Prussian Guard, to silence its machine guns—to win!

It's a pretty good way to fight—this American way. It wins battles over there, it will win a splendid victory over here—if we *fight* when we fight—if we buy Liberty Bonds to our utmost.

When you fight—fight! When you buy—buy!

Lend the way they fight—Buy Bonds to your utmost

America's Coming of Age

By DR. FRANK CRANE

America is coming of age.

The nation's hundred years of democracy have been but the preparation for its manhood.

It is a cheap jibe to say that America was unprepared for this war. It has had the mightiest preparation in the history of nations. For over a century Destiny has been preparing in this New World a spirit of triumphant Democracy. Such a spirit cannot be made. It must be grown, inbred.

On this Western Continent Destiny has been training the young Galahad for the rescue of the world.

Nature has an antidote for every poison.

American Democracy Is the Antidote for German Autocracy

Every one of our wars has been for the same purpose: to liberate the common man.

The Revolution of 1776 was to get the privileged class of England off the backs of the American Colonists who were redeeming this wilderness.

The War of 1812 was to rescue American seamen from oppression.

The Mexican War was to liberate the settlers of Texas from the whimsy cruelty of Mexico.

The Spanish War was to save the people of Cuba from the tyranny of the Spanish Government.

Every time our army and navy have gone forth it has been to clean up some filthy autocracy.

But all of our wars have been but a preparation for our present task. We did not realize it. No man foresees his destiny, no nation foresees its mission. Yet the life of every nation, as of every man, is a plan of God.

God has been piling up riches on this continent until we are the wealthiest

nation in the world. He has been sharpening our inventive skill and our business ability. Our training has been intensive.

Now God says, "America you are come of age. All I have done for you is to prepare you for the present conflict, for your real work. Go forth and make the world a decent place to live in."

At this time every son of America is called upon to do his utmost. The slacker is a traitor.

We are sending men across the ocean, men who are physically and mentally the pick of the world, an incomparable army. But the men at home must back them up.

It is as much our solemn duty to put our money into the Fourth Liberty Loan as it is the duty of the soldier to stand firm at his post in battle.

The Fourth Liberty Loan is to be our supreme effort. God helping us, we shall not be found wanting. Let us subscribe all we can, and a little more.

America, Civilization, Democracy, Humanity, expect every man to do his duty

I have a rendezvous with death—

I have a rendezvous with death
At some disputed barricade,
When Spring comes back with rustling shade
And apple-blossoms fill the air—
I have a rendezvous with death
When Spring brings back blue days and fair.

It may be he shall take my hand
And lead me into his dark land,
And close my eyes and quench my breath.
It may be I shall pass him still—

—ALAN SEEGER
(Killed in action Jul. 5, 1918)

G—Charles Scribner's Sons

THIS American did not fail that rendezvous—and death did not pass him by. When he died the world lost a true poet. His death brings out in sharp relief how much one soldier who is lost to us—one man killed—may mean to the world.

So let us keep our rendezvous at home—our rendezvous with life. Let us look into our lives, our households, and see that they are mobilized for war. Let us save our money to save these men who daily have rendezvous with death. Let us keep our rendezvous with life and help them to win through and to come back to sunshine and happiness, and home with victory on their banners.

The Boy From Next Door

YOU used to see him swing gaily down the street, radiant with the vigor of his sturdy young manhood. One day he came home in khaki; then his father told you, with mingled pride and foreboding, that he had "gone across" with his regiment.

Yesterday his name was on the casualty list—"slightly wounded"—and your face grew grave as you thought of the sorrow and suspense of his father and mother.

From every city street, every village, every community, the boy next door has gone to war.

Think of these thousands of splendid young Americans, reared in comfort, peace, and security, now suddenly plunged into that roaring inferno of battle with the hardened hordes of a desperately determined foe.

What are you doing to help them?

What are you doing to arm and protect them, and bring them home in safety? Have you bought Liberty Bonds? Have you bought all you possibly can?

Has it occurred to you that one more Bond, bought with a little additional effort, may save the life of the boy from the next door?

YORK COUNTY

WILL RAISE FARES

The York Railways company, it was announced, has decided to make application to the Public Service Commission of Pennsylvania for permission to make another increase in fares. The company will ask the permission to sanction a seven cent fare on all city lines and a proportionate increase on suburban branches. It was explained by Gordon Campbell, president and general manager of the company, that the proposed jump to seven cents is made necessary by the recent advance in wages demanded and granted to employees of the trolley lines and the rising cost of materials.
On August 8 last, following a general increase of wages to the men, the company adopted a six cent fare on city lines and proportionate increases on its suburban lines. The increase was made after consulting York council and getting the necessary permission from the Public Service Commission. It was hoped then that no further increase would be necessary for some time to come, but later developments, as stated, have compelled the corporation to seek additional revenue.

CITED FOR BRAVERY

Sergeant Charles Myers, Private Paul H. Lehman, and David Kisser, are three Wrightsville boys who are members of Company B, 106th Machine Gun Battalion, which has been mentioned for bravery in action, having had seventy two days of the severest fighting with only a few days in rest camps.

According to a letter received by Harry Campbell, from Private Reuben J. Strickler, with the American Expeditionary Forces in France, Private Strickler was one of a large number of American troops who met and escorted Secretary of War Baker on his visit to Tours, France.

FIELD MEET IS OFF

The York County Boy Scout field meet, which was scheduled to take place in Red Lion on Saturday afternoon of this week, has been postponed indefinitely. To an announcement was made by Assistant Scoutmaster C. E. Strick, Epidemic conditions made the step necessary.

EPIDEMIC SPREADS

The alarming extent to which the

influenza epidemic has spread in the section about Wellsville, is shown by the statement made that the one physician of the section is attending 500 patients. That Dr. H. Bruce Herick is able to accomplish the task which the prevalence of the disease has thrown on him is due to the fact that in a big percentage of the homes he visits, all the members of the family have the disease, the stages varying.

It is not believed the epidemic has reached its height, as a great many new cases are being reported.

As Dillsburg has 200 cases there are in that corner of the county, at a conservative estimate, more than 500 cases of the disease. Many of these having the disease are suffering from attacks of a severe nature. The family of C. S. Spangler, Rossville, all have it, Mr. Spangler being compelled to close his place of business.

CUMBERLAND CO.

Things look brighter for the Fourth Liberty Loan campaign in Cumberland county Wednesday evening. Shiremanstown reported passing the quota set for the town by several thousand dollars additional and have been awarded an honor flag.

The strongest appeal yet made for the loan comes from Mrs. E. C. Carroll, of West Fairview, a mother who has given two sons on the altar of freedom. Replying to a letter from the Liberty Loan committee, similar to that sent to many sections, Mrs. Carroll says:

"Your letter received with sadness, because Howard Charles Carroll was killed in the first great battle in the Marne, in France, and on August 27, another son was killed doing his duty as a wagoner. He was Owen M. Carroll. I have given the largest Liberty Bonds a mother could; besides I have taken out all the War Savings Stamps I can and one Liberty Loan of the Third and one of the Fourth, and would be only too glad to take more if I could.

"I will hand the two blanks to our committee in town. I have nothing for a slacker, by no means. My boys gave their lives gladly to help bring freedom and if I could do it I would make every slacker do a big share in winning this war. I would push them to the wall so tight that they could not get out of giving.

"I expect to give to everything as long as I have anything to give, in money, in prayers and in doing. My heart cries out to God for victory every day, and I shall continue to pray until victory comes."

WORK FOR TRIP

Boy Scouts of America, Carlisle Troop No. 2, is doing remarkable work in the Liberty Loan campaign. It went on record as pledging \$20,000 and has secured \$12,000 to date. If the members succeed in reaching the quota this week arrangements have been made for a trip to Washington and a visit to the White House. Two Scouts Hudson and Hertzler, are down with influenza. They have sold over \$1,000 from their sick beds.

HOW TO AVOID FLU

Suggestions are Made by War Department Representative.

The following suggestions for avoiding influenza are recommended by the Surgeon General of the Army, and are published for the information and guidance of all concerned:

Avoid needless crowding—Influenza is a crowd disease.

Smother your coughs and sneezes—others do not want the germs which you would throw away.
Your nose, not your mouth was made to breathe through—get the habit.

Remember the three C's—a clean mouth, clean skin, and clean clothes.
Try to keep cool when you walk and warm when you ride and sleep.
Open the windows—always at home at night; at the office when practicable.

Food will win the war if you give it a chance—help by choosing and chewing your food well.

Your fate may be in your hands—wash your hands before eating.
Don't let the waste products of digestion accumulate—drink a glass or two of water on getting up.

Don't use a napkin, towel, spoon, fork, glass or cup which has been used by another person and not washed.

Avoid tight clothes, tight shoes, tight gloves—seek to make nature your ally not your prisoner.
When the air is pure breathe all of it you can—breathe deeply.

"APPETITE RESTORED AND STRENGTH RENEWED"

S. E. Kauffman, living at Bismarck, Lebanon county, Pa., has this to say about Tonal.

"I suffered from stomach troubles and my system was run down. Had indigestion bad. I was miserable. Hearing so many people being benefited by taking Tonal and reading about the well-known roots, herbs and barks it contains I believed it was a good medicine for me. I am now taking the fourth bottle and my appetite is back again, and I have back my old time strength.
Tonal is the best I have ever used and it pays to try it before any other. It is the real thing for stomach ailments."

This testimonial was given Sept. 16, 1918.

Signifies Honorary Promotion.
Brevet is a French word, meaning commission or warrant. In military service it gives an officer higher nominal rank than the one for which he receives pay. It is an honorary promotion. The first time it was used in the United States army was in 1812, when Capt. Zachary Taylor, who afterward became president, was made major brevet for his brave defense of Fort Harrison against the Indians, at Terre Haute.

Water Hyacinth Has Value.
The water hyacinth, which so rapidly fills up certain streams, is found to have a high value as a fertilizer. On account of the large amount of water the green plant contains the material is partially dried before slackening and after becoming well rotted it proves to have about the same composition as farmyard manure, except that it is richer in potash.

ANAEHIA AND POOR BLOOD

How Mr. Burnell's Daughter Re-
covered.

Drewsville, N. H.—"My daughter
was anaemic, had poor blood and suf-
fered from indigestion and bilious at-
tacks. As Vinol had built up my son
some time ago, I gave it to my
daughter, she soon improved in
health, and it has built her up and
restored her health."—Mrs. N. Bur-
nell.

The reason Vinol was so success-
ful in Miss Burnell's case is because
it contains beef and cod liver pep-
tones, iron and manganese, pepton-
ates and glycerophosphates, the very
elements needed to build up a weak-
ened, run-down system, make rich
red blood and create strength.

TO OUR CUSTOMERS AND FRIENDS

War causes the Government to come into our homes and call out the son, broth-
er or husband and puts his life at stake for us, without a promise of return to him.
The Government has not come to the remainder of us (to whom the winning of the
War means just as much or more benefit) and asks us to give our money, but merely
asks us to lend our money or credit, and further promises to return it to us at a desig-
nated time, both principal and interest, at a rate ever greater than paid by Savings
Banks.

Lend to your utmost for Victory, make use of your money by buying bonds and
then more bonds. Money is the Vital Factor in the winning of this War. You must
lend more than before, the Fourth Liberty Loan is larger; the obligation on each of
us is greater. We must use all available cash and then borrow to buy bonds; in other
words, lend our credit to the Government until after the War.

We, the undersigned Banks will loan you 90 per cent of the face of the bonds at
not more than 4 1-2 per cent. We are ready—use us.

This War must be carried on to the finish by just two classes of men—THE
MAN AT THE FRONT and his FINANCIAL BACKER, Be a HERO BACKER, with
the same spirit as the men at the FRONT.

REMEMBER the War is not over yet, it will not be until Justice and Right and
Humanity have gained a complete Victory.

We invite you to come in and talk over plans to make it easy for you to be of
greatest service to our Country, to make it safe for Liberty.

What Do You Mean "AFFORD"?

By GEORGE ADE

We come to another big task. This time we need not call for
helpers. The volunteer workers stream in myriad hosts along
the main highway leading to victory and vindication.

All patriots, by confession.

The grumblers are awed into si-
lence. If the taint of disloyalty remains
anywhere it is hidden as a shameful
secret. The heads are wagging and
we hear many bold assurances:

"I'll do all I can."

"I'll go as far as the next fellow."

"I'll take all I can afford to take."

We are speaking of course of the
Fourth Liberty Loan and the willing-
ness of the war-backers to subscribe.

This time we do not explain a Lib-
erty Loan and how it works, or why
we battle with Germany or that a war
costs money. It will just about require
a search warrant to find a man who
does not say that he will take all of
the bonds he can "afford" to take.

But, O my countrymen, we need
night schools and correspondence
schools, private tutors and Chautau-
ques and special information bureaus
to enlighten Mr. A. and Mr. B. and Mr.
C. as to the real meaning of the word
"afford."

Are you penciling around to find
out how much money you can set
aside without the slightest inconven-
ience to any of your pet private
projects?

Are you trying to decide how
many bonds you will have to take in
order to escape the charge of being a
slacker?

Hurry to the bank and break through the line and order
so many Liberty Bonds that the man inside will be dazed and
all of the neighbors surprised and all of your relatives proud.

Buy Liberty Bonds—Wholesale, Not Retail

This Space Contributed to Winning the War by

The Princes of Germany Are Shaking Dice for the United States!

By Herbert Quick

WE must buy bonds to the last cent
of our ability, because our coun-
try is fighting for its very life. Make no
mistake, citizens of America, the crisis is
just that—we are fighting for our very
life.

We must fight this war through. We
must fight it through to a peace the basis
of which will be written by us and our
Allies.

Germany must not write a single
clause in the Treaty. She must be
whipped until she will sign a treaty every
word of which will be drawn by the Al-
lies. Germany must not be allowed to
dot an i or cross a t.

Why?

Because Germany has become nothing
but a robber empire, a murderer empire,
an empire every purpose of which is the
enslavement of the rest of the world.
Such purposes admit of no compromise.
We must conquer or die. If we do not
conquer we shall, nevertheless, die—and
die slaves.

Germany began with the intention of
robbing France of her iron, her coal, her
best land and her great factories; of mak-
ing Belgium with her rich mines, great
cities and immense factories a part of
Germany; of gaining the Belgian coast,
from which she might conquer England,
and of combining under her flag the
hordes of Mohammedan Turks, and all
the Balkan States, so that she might
train soldiers in countless millions, build
navies to sweep the oceans, and conquer
the world.

This war was to be a step toward
world conquest.

**Buy Bonds, for so only can the war be won. Unless it is
won, everything you possess is lost, and with
it the American soul is lost**

If we do not fight the war through to
complete victory she will still keep on
and she will succeed. She will surely
succeed!

Russia with her nearly 200,000,000 peo-
ple lies prostrate at Germany's feet. Ger-
many could now give up the Balkan
States, give up Belgium, force Austria to
yield up the Italian territories, give up
conquered France, yes, she could give
up these, and even Alsace-Lorraine, and
if allowed a free hand in Russia, she
would still have won a victory greater
than any of which she ever dreamed at
the beginning of the war.

Give her control of Russia and she can,
and will, within a few years come back
with power to take back Alsace-Lorraine,
crush poor Belgium once more and de-
stroy exhausted France, sweep every
vestige of resistance from Europe, Asia
and Africa, and then what?

Then she will thunder at our doors—
from Asia she will invade us on the
West, from Europe on the East, and
from Mexico on the South.

If Germany has control over the terms
of peace, we who read this will live to see
one of the Kaiser's six sons Emperor of
America.

The time to whip Germany is now!

It is now or never!

**The Princes of Germany are shak-
ing dice for the United States!**

It will take money, money, money, that
we may send men, men, men!

PAINS AND ACHES YIELD QUICKLY TO SLOAN'S LINIMENT

Are you tormented by Neuralgia, Lumbago, Sciatica or any of those aches that require a counter-irritant? Then let the soothing, warming application of Sloan's Liniment stop the pain by drawing the blood away from the congested part.

It is the pressure on the nerves by the blood rushing to the inflamed muscle or joint that makes you ache. So when Sloan's Liniment relieves the swollen blood vessels by setting up a counter-irritant on the surface, the circulation is equalized, sympathetic nerves all soothed, and soreness or lameness disappears.

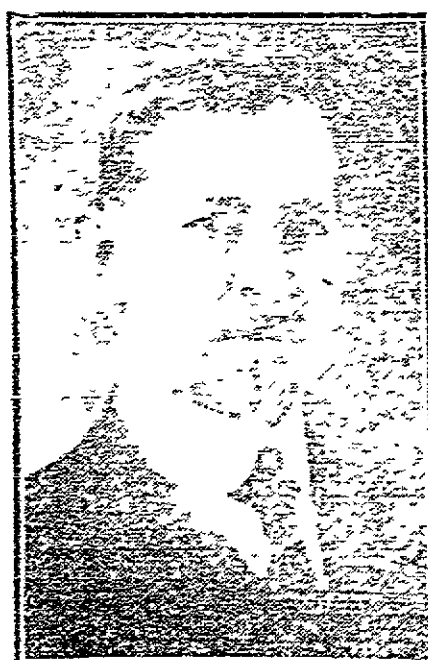

Sloan's Liniment is probably the counter-irritant most widely used to overcome painful inflammation in cases of neuralgia, sore muscles, wrenched joints, strains, bruises, gout. Rubbing is not required. This clear, clean liquid is easily applied as it does not stain the skin.

Generous size bottles at your druggists.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.
